SUMMARY

As a WordPress developer with 6 years of experience, including 2 years at a Philippine agency and 4 years remotely with a Netherlands-based agency, I bring a wealth of knowledge in HTML, CSS, jQuery, and PHP. My journey started as the sole full-time employee of a startup, which has since flourished into a competitive agency. I thrive on transforming designs from PSD and Figma into dynamic, user-friendly websites. Let's create something amazing together!

SKILLS

Html, css, jquery, PHP, Elementor, WordPress, Crocoblocks, Woocommerce, Figma, and Adobe Photoshop.

EDUCATION

Bachelor in Information Technology, Information Technology
June 2015 - March 2019

EXPERIENCE

WordPress Developer

Logicbase Interactive Ent.
June 2015 - March 2019

I create websites based on provided content, designing and converting them into live sites using WordPress and Beaver Builder. Occasionally, I build sites from scratch using HTML, CSS, and jQuery to ensure they meet your vision perfectly.

Front-end Developer

Mr. Webdesign
June 2022 - Present

My work involves building websites from scratch, using provided Figma designs, or designing them myself. I also create custom plugins for functionalities like disabling animations globally. Additionally, I leverage custom CSS, jQuery, and PHP to enhance designs and functionalities that standard widgets can't provide.
